DETAILED ACTION

Claims 41-45 and 47-62 are pending in this application.

Action Summary

Any rejections of record that are not repeated below are considered withdrawn.

Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The claims are allowable over the cited prior art because the prior art does not teach, disclose nor make obvious composition consisting essentially of from about 1 to 90% self-invertible latex and 10 to 99% at least one powder, wherein the inverse latex comprises an oil phase, aqueous phase, at least one water-in-oil emulsifier, at least one oil-in-water emulsifier and a branched or crosslinked polyelectrolyte. The closest prior art reference of Mikolajewicz et al. teach a composition comprising a self-invertible inverse latex and a powder component; however, the powder was in a concentration of only 5%. A concentration of the powder at 10% was neither taught nor suggested. The composition also contains other components that materially affect the composition such as water, a preservative, and a stabilizer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 41-45 and 47-62 are allowed.
